About My Internship with Clevered

Throughout my time at the internship I was impressed with the quality of instructions and the dedication of the staff I am especially grateful for the guidance and support provided by Ms. Mani her dedication to the students and her passion for coding inspired me to work harder and strive for excellence. 😊

About App

-App's Main Menu

A user friendly Chabot app that communicates with the user and gives him some fun information and entertainment 😊

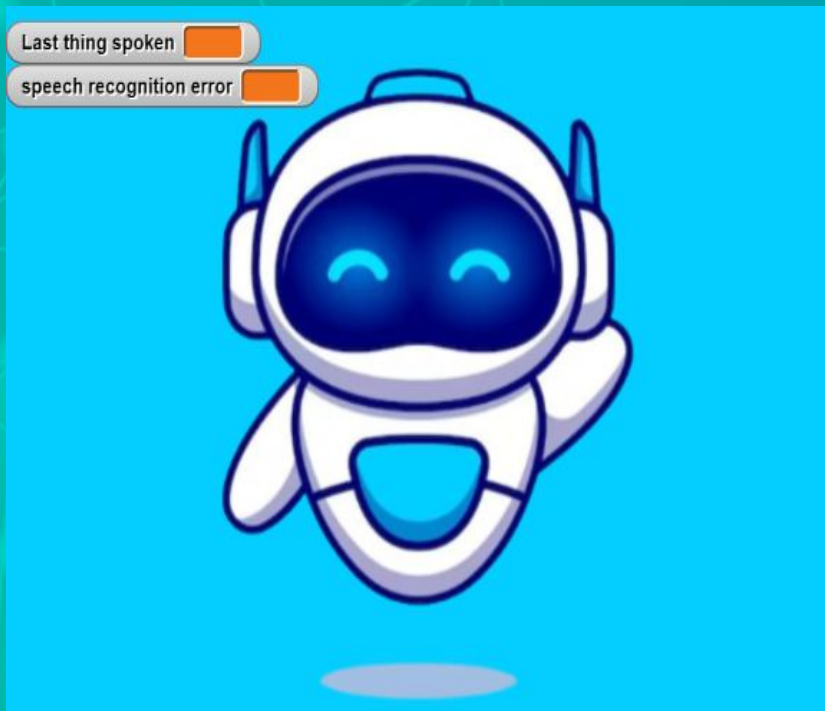

How do I use the App?

So basically the Chabot will start to introduce itself to the user then it will start asking questions to know more about the user ; after that the Chabot will start telling the user some fun information like: jokes facts etc..... 😊

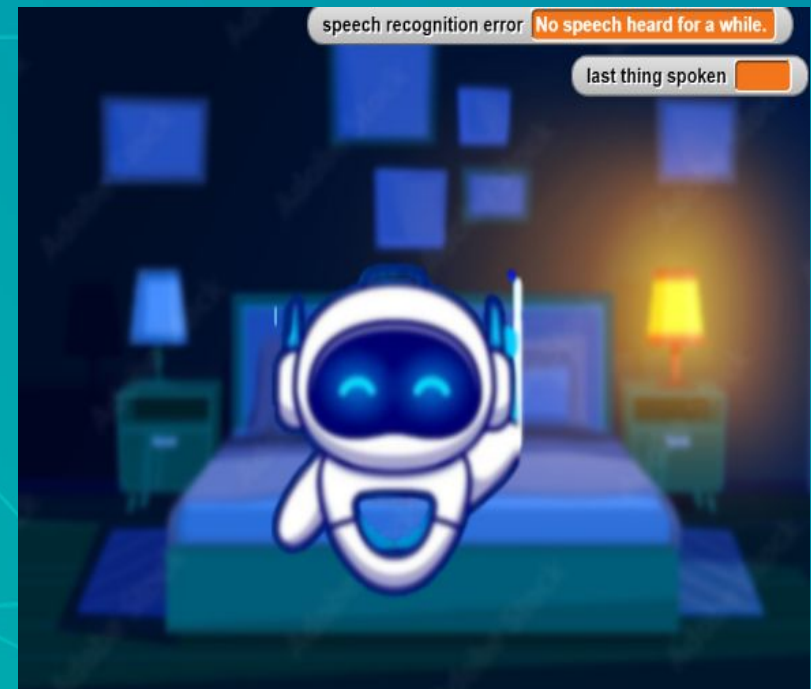

WONDER ROBOT

(This will be repeated for each option of the App)
